PROFESSIONAL SUMMARY

Motivated Front-End Developer and recent BSc graduate in Software Development with hands-on experience delivering 10+ freelance web projects from requirements gathering to deployment. Proficient in building responsive, accessible, and performance-optimized web interfaces using HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, and Bootstrap 5. Passionate about clean code, intuitive UI/UX design, and continuous learning in modern front-end ecosystems.

TECHNICAL SKILLS

Languages & Markup	HTML5, CSS3, JavaScript (ES6+), JSON
Frameworks & Libraries	React.js, Tailwind CSS, Bootstrap 5, SASS/SCSS
Layout & Styling	Flexbox, CSS Grid, Responsive Design, Media Queries, CSS Animations
Tools & Workflow	Git, GitHub, VS Code, npm, Vite, Chrome DevTools, Figma
Performance & Quality	Web Performance Optimization, Lazy Loading, SEO, Accessibility (WCAG)
Concepts	UI/UX Principles, BEM Methodology, REST APIs, Cross-Browser Compatibility, Agile

SOFT SKILLS

- ▶ Client Communication — Building clear and effective relationships with clients, gathering requirements, and delivering regular progress updates.
- ▶ Working Under Pressure — Delivering high-quality work within tight deadlines while maintaining composure and focus.
- ▶ Problem Solving — Analyzing complex technical challenges and identifying practical, efficient solutions.
- ▶ Self-Learning — Proactively keeping up with the latest front-end technologies and best practices through continuous independent learning.
- ▶ Time Management — Effectively prioritizing tasks and managing multiple projects simultaneously to meet deadlines consistently.
- ▶ Attention to Detail — Ensuring pixel-perfect implementation and thorough code review to deliver polished, error-free results.

PROFESSIONAL EXPERIENCE

Freelance Front-End Developer | Self-Employed | 2024 – Present

- ▶ Designed and developed 10+ responsive websites for clients across various industries using HTML, CSS, JavaScript, React.js, and Tailwind CSS.
- ▶ Orchestrated direct collaboration with clients, translating intricate business needs into streamlined, functional web interfaces with consistent adherence to project timelines and iterative feedback cycles, achieving 95% client retention.
- ▶ Optimized website performance through lazy loading, code splitting, and asset compression, consistently achieving 90+ Lighthouse scores across delivered projects.
- ▶ Maintained 100% client satisfaction rate across all delivered projects, resulting in repeat engagements and referrals.

PROJECTS

Personal Portfolio Website — HTML5 · CSS3 · JavaScript · TailwindCSS

- ▶ Built a fully responsive personal portfolio showcasing skills, projects, and contact information with mobile-first approach.
- ▶ Implemented smooth scroll animations, dynamic project filtering, and semantic HTML structure — achieving 95+ Lighthouse performance score.

Task Management Web App — React.js · JavaScript (ES6+) · CSS3 · LocalStorage API

- ▶ Built a full-featured task manager with add, edit, delete, filter, and priority-sorting functionality using React hooks and component-based architecture.
- ▶ Persisted user data via LocalStorage API for seamless session continuity; applied ES6+ features (destructuring, arrow functions, modules) for clean, maintainable code.

Salads — Restaurant Website — HTML5 · CSS3 · JavaScript · TailwindCSS

- ▶ Designed and developed a full multi-section restaurant website featuring hero, menu, chef showcase, testimonials carousel, and fully responsive navigation.
- ▶ Delivered visually engaging UI with custom typography, hover effects, and smooth layout transitions — reflecting a premium food-brand aesthetic.

Christmas — Christmas Event Website — HTML5 · CSS3 · JavaScript · Bootstrap 5

- ▶ Built a festive multi-section event site featuring a live countdown timer (days/hours/minutes/seconds), tabbed event schedule, tiered pricing plans, and a newsletter footer.
- ▶ Delivered immersive holiday UX with animated snow effects, CSS illustrations, and red/green/white theming across all device sizes.

EDUCATION

Bachelor of Science in Software Development

Islamic University of Gaza | 2021 – 2025

- ▶ Relevant coursework: Web Development, Data Structures, Object-Oriented Programming, Database Systems, Software Engineering.
- ▶ Completed multiple academic and capstone projects involving full-stack and front-end web applications.

CERTIFICATIONS & COURSES

Front-End Development Certificate — HTML, CSS, JavaScript (ES6+), Bootstrap 5, Tailwind CSS

Front-End Development Course — HTML, CSS, JavaScript (ES6+)

Advanced JavaScript Course — ES6+, Async/Await, DOM Manipulation, OOP, Design Patterns

HOBBIES & INTERESTS

- ▶ Problem Solving — Tackling coding challenges on platforms like LeetCode to sharpen algorithmic thinking.
- ▶ Gaming — Enjoying video games as a way to unwind and explore interactive design and storytelling.
- ▶ Fitness — Maintaining an active lifestyle through regular exercise and physical training.
- ▶ Music — Listening to a wide range of music as a source of inspiration and creative energy.
- ▶ Football — Passionate follower of football, enjoying both watching matches and playing recreationally.
